- 26 years old
- Married
- Sao Paulo / SP - Brazil
- Native Portuguese
- Fluent English

TECHS I WORK WITH

JavaScript CSS React
React Native Gatsby.js Next.js
GraphQL Redux Apollo Node.js
Electron Cordova CircleCI
Heroku

TECHS I WANT TO WORK WITH

JavaScript CSS React
React Native Gatsby.js Next.js
GraphQL Apollo Node.js
Electron Vue.js ClojureScript
CircleCI Heroku

INTERNATIONAL EXPERIENCE

Australia – Facilitate Digital (From March/2012 to June/2012)

While working for Admotion, I helped with the creation of the rich media team at Facilitate Digital, in Sydney.

Argentina – Admotion Sistemas (August 2010 and March 2012)

I attended to JavaScript trainings and helped with the development of AFA, Admotion's main product.

PROFESSIONAL EXPERIENCE

HE:labs & Ignus (since may/2017)

Currently, I'm working at Ignus, from the HE:labs group, as web developer, specialized in front-end and javascript technologies in general.

JavaScript React React Native Redux Next.js Apollo Ionic CSS SASS css-in-js
Cordova Node.js GraphQL PostgreSQL CircleCI Heroku

EcoStage (from nov/2016 to apr/2017)

EcoStage is the leading company in developing socio-environmental projects, there I worked as front-end developer

JavaScript React Redux redux-saga Immutable.js CSS SASS

Interativa Events (from may/2015 to may/2016)

Acted as head developer, planning and coding most of the company's projects. Every week, we created apps for our customers' events, like survey apps, social media totems, RFID systems and games.

JavaScript React Redux CSS LESS Cordova Electron Node.js MySQL Digital Ocean

Havik/Kenoby (from nov/2013 to fev/2015)

At Havik, one of the biggest HR Consulting Firms in Sao Paulo, I've developed Kenoby, which is an applicant tracking software that improves head hunters efficiency and precision.

JavaScript jQuery Backbone Angular.js React CSS LESS Codeship CI Digital Ocean

ListenX (from jan/2013 to out/2013)

I've designed and developed the front-end of many of the company's internal and external softwares, focusing in usability and user experience.

JavaScript jQuery Backbone CSS LESS

Admotion Sistemas (from apr/2009 to nov/2012)

With Admotion, I've had the chance to build internal and external projects using many tools and languages, like ActionScript, Flash Media Server, .NET, PHP.

JavaScript jQuery CSS Flash C# PHP MySQL

RTI Consulting (from jan/2004 to fev/2006)

I've developed several projects from conception to delivery, like e-commerces, websites, and custom CMSs.
